Volume 4, 1962

published by the

**AMERICAN GEOLOGICAL INSTITUTE**  
2101 Constitution Ave., N. W., Washington 25, D. C.

Published by the American Geological Institute operating under the National Academy of Sciences-National Research Council. Publication policies are by recommendation of the AGI Advisory Committee on Translations, Herbert E. Hawkes, Jr., Chairman. Editorial staff: Martin Russell, Managing Editor; Thomas F. Rafter, Jr., Manager, Translations Office; Nellie F. Brown, Compositor Supervisor.

International Geology Review is a monthly publication reporting in English significant contributions to pure and applied research in geology, solid earth geophysics and related sciences which appear in foreign-language journals, especially those published in the U. S. S. R. It includes book reviews, state-of-the art reviews, news of international scientific meetings, and a literature and translations reference section.
